SONANCE LANDSCAPE SERIES

— LS4T SAT · LS6T SAT · LS12T SUB · LS15T SUB · HS12T SUB —

Sonance is the dealer's choice for landscape audio and has lead the category as an industry expert. From the pioneers of performance landscape audio comes the next generation of SLS speakers and subwoofers. Redesigned and engineered for ultimate performance in any outdoor space, new SLS paves the way for premium audio in shared outdoor environments.

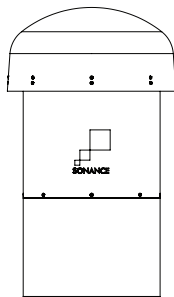

With the introduction of the Sonance Laminated Core Transformer with adjustable taps, Sonance Landscape Series speakers and subwoofers can be configured for 70V/100V or 8 Ohm system designs, allowing flexible output to cater to specific listening zones. Sonance Landscape Series continues to push outdoor audio performance to the next level.
